REQUISITES FOR ADMISSION.

Candidates for admission to the Freshman Class, Classical course, are examined in the following studies :

1. English Grammar, Geography and History.
2. Arithmetic and Elementary Algebra.
3. Latin Grammar, Latin Reader, Cæsar and Three Books of Virgil's *Æneid*.
4. Greek Grammar and Reader.

Candidates for admission to the Freshman Class, Scientific course, are examined in the Latin Grammar, and in all the studies named above, except the Greek and remainder of the Latin.

Candidates for an advanced standing are examined in the studies pursued by the Class they desire to enter, or such as are deemed equivalent. It is highly important that students have a thorough preparation in grammatical and elementary knowledge.

The regular examination for admission to College will be on Wednesday preceding COMMENCEMENT and the Wednesday before the opening of the Fall Term. Students will, however, be examined when application is made.

Testimonials of a good moral character will be required in all cases, and students coming from other institutions must present certificates of regular dismission.

Students must be ten years of age for admission into the Normal and Preparatory Departments, and fourteen for admission into the College courses.

NORMAL AND PREPATATORY DEPARTMENTS.

In these departments special attention will be given to those wishing to prepare themselves for Teachers, and also for entering any of the preceding courses.

STUDIES PURSUED.**COMMON ENGLISH.**

Grammar, Mental and Written Arithmetic, Geography, Orthography, Reading and Spelling and Penmanship.

HIGHER ENGLISH.

Higher English Grammar, Higher Arithmetic, Elementary Algebra, Natural Philosophy, Astronomy, Physical Geography, Book-Keeping, Composition and Elocution.

The studies pursued in the classical preparatory course have been referred to.

LECTURES.

Lectures on the various subjects pursued will be delivered occasionally before the classes and Students.

LITERARY EXERCISES.

Declamations and Compositions are expected of the Students in all the departments of the University. The plan will be made known at the opening of each term.

LOCATION, BUILDING, &c.

The location is healthy and beautiful. The population of Fayette is between six and seven hundred, and free from those demoralizing influences frequently prevalent in such villages. The building is one hundred feet long and forty-four wide; three stories high; built of cut-stone at a cost of over \$30,000. The interior finish is superior. The building is unsurpassed by any similar structure in the State. It is surmounted by a cupola containing a bell of 1236 pounds.

EXAMINATIONS.

There will be a public examination at the close of each term; annual examinations at the close of the Spring term; biennial examinations at the close of the Sophomore and Senior years. The examinations are before a Committee appointed for that purpose, and decide the standing and advancement of the Students.

PUBLIC WORSHIP.

Prayers with the reading of Scripture are attended morning and evening in the University chapel. The Students are required to attend church on the Sabbath.

MERIT ROLL.

A daily account of scholarship, attendance and conduct is kept and read at the middle and close of each term, and sent to parents when requested.

DEGREES.

The degree of Bachelor of Arts is conferred on all Students who have completed the classical course and sustained a satisfactory examination therein. The degree of Bachelor of Science is conferred on all Students who give evidence of a thorough completion of the Scientific course.

Ladies completing the course prescribed for them will receive the same degree as Gentlemen completing the Scientific course.

No degree will be conferred unless all college dues are secured. The fee, including Diploma, in each case, is five dollars, payable in advance.

GOVERNMENT.

The government will be parental. All Students will be expected to conform their conduct to the rules of propriety. No Student of a bad or doubtful character will be permitted to remain a member of the Institution.

LIBRARY.

The Library will be open every Saturday. A small fee will be charged for its use. It is hoped that additions will be continually made to this important department.

APPARATUS.

Quite a fine Chemical and Philosophical Apparatus has been obtained. Hence Students will enjoy good advantages in the department of the sciences.

LITERARY SOCIETIES.

Three Literary Societies are in successful operation. These Societies are highly beneficial. Occasional Addresses are delivered before them on various subjects of interest.
